

Applied Developmental Psychology BS

69-71 Quarter Credits

Why Study Applied Developmental Psychology at EWU?

The Bachelor of Science in Applied Developmental Psychology prepares students for entry-level work and graduate study in a variety of developmental and human service careers. The program covers basic areas of human developmental psychology across the life span with a special focus on processes and principles of developmental change. Our undergraduate programs in psychology are patterned after the recommendations of the American Psychological Association for undergraduate majors in psychology.

Career Opportunities

Psychology majors, whether they have gone on to careers in psychology, counseling or other fields, cite courses in the principles of human behavior as especially applicable to life after college. The additional insight gained helps guide parents, business managers and professionals in many fields. Many bachelor's degree holders credit their college psychology courses with teaching them how people, including themselves, learn and develop. Above all, it is the rigorous training in the scientific method - the need to do thorough, objective research, analyze data logically and put forth the findings with clarity - that prepares psychology majors to succeed in their

Other Degree Options

The Psychology department also has a Bachelor of Arts degree in Psychology, a minor in Applied Developmental Psychology and a minor in Psychology.
