

## Children's Studies BA

55-82 Quarter Credits

### Why Study Children's Studies at EWU?

The curriculum of this interdisciplinary program provides a strong holistic background in the study of children, from birth to adolescence. Theory and practice, from a variety of disciplines, form the basis for this integrated curriculum. Children's studies courses provide foundational and global perspectives of children and childhood. A choice of concentration areas, culminating in a capstone experience, allows students to connect effectively with specific career opportunities. The Children's studies perspective emphasizes comprehensive studies of children's lives and respect for children's experiences.

### Is Child Services for me?

This options is designed for students interested in pursuing work with children and/or families at the agency level. The scope of applicable careers is vast. Some example work settings and roles are adoption agencies, district health and services agencies, court appointed special advocates (CASA), program directors, and agency support.

### Other Degree Options

Degree options or emphasis areas for a Children's Studies degree include Child Life & Health, Child Services, and Child & Family Support.
