

Management Information Systems BAB

69 business core credits; 28 major credits, 20 credits for Minor

Why study Management Information Systems?

Information systems support business operations and decision making. Today, driven by basic changes in how business is done, information technology and information services strategy may be the single biggest determinant of a company's future success. The person who understands and manages information systems plays a pivotal role in the organization.

Career Opportunities

Management Information Systems prepares students to effectively manage business information systems. This major provides background in programming, computer network, database systems, business intelligence, and systems analysis and
