

## Health Psychology BS

67 Quarter Credits

### Why Study Psychology at EWU?

The Bachelor of Arts program is patterned after the recommendations of the American Psychological Association for undergraduate majors in psychology. It offers a solid background in research methods and statistics, a central set of core theory courses and opportunities for focused, "hands on" experiences in research and in the field. Students can shape their program to meet unique interests through our broad set of courses and electives.

### Career Opportunities

Psychology majors, whether they have gone on to careers in psychology, counseling or other fields, cite courses in the principles of human behavior as especially applicable to life after college. The additional insight gained helps guide parents, business managers and professionals in many fields. Many bachelor's degree holders credit their college psychology courses with teaching them how people, including themselves, learn and develop. Above all, it is the rigorous training in the scientific method - the need to do thorough, objective research, analyze data logically and put forth the findings with clarity - that prepares psychology majors to succeed in their

### Other Degree Options

The Psychology department also has a Bachelor of Arts degree in Psychology, a Bachelor of Science in Health Psychology, a minor in Applied Developmental Psychology, a minor in Psychology, and a minor in Industrial/Organizational (I/O) Psychology.
