

**2010-11 Program Assessment Update**Department & Program: Chemistry BAEsubmitted by: Robin McRae

Please fill out a separate assessment table for each program of study (e.g., one table for BA-Art, another for BAE-Visual Arts, etc.) As needed, add additional rows to the table for each student learning outcome for which you gathered assessment results during 2010-11.

Student Learning Outcome	Strategy or method of measurement	Observations gathered from data	Actions recommended based on observations	Plan and timetable for taking action	Overall evaluation of progress on objective
Demonstrate knowledge and skills sufficient for them to safely teach chemistry in the secondary school setting.	survey of job status of graduates in last two years	2 BAE graduates One is teaching chemistry at Medical Lake H.S.; the job status of the other is unknown. At least 50% success in job placement in desired field.	Improve method for contacting graduates.	Have improved method in place before assessing this SLO again.	Valuable objective; may need rewording to improve measurability.
