

Introduction

Some chemicals are regulated by the Environmental Protection Agency and Washington State Labor and Industries. Information regarding the use of these chemicals is required to be collected. This information is used to determine occupational exposure probability and the need for air monitoring during use.

This questionnaire will be sent to labs every other year to determine if regulated chemical usage has changed. If your regulated chemical usage changes between questionnaires, please complete a new form and send them to Environmental Health & Safety (EH&S). A copy of this questionnaire is available on the [EH&S website](#).

Please check the boxes below for each chemical used in your laboratory, and complete the use questionnaire for each chemical you identify as using. If you do not use any of the chemicals listed, please check the “Do Not Use” box.

Thank you in advance for taking the time to help make Eastern Washington University a safe place to work and learn.

Regulated chemicals used:

2-Acetylaminofluorene	Formaldehyde
Acrylonitrile	Inorganic Arsenic
4-Aminodiphenyl	Lead
Benzene	Methyl Chloromethyl ether
Benzidine	Methylene Chloride
1,2-Dibromo-3-Chloropropane	Methylenedianiline
1,3-Butadiene	Alpha-Naphthylamine
Cadmium	Beta-Naphthylamine
3,3-Dichlorobenzidine	4-Nitrobiphenyl
Bis-Chloromethyl ether	N-Nitrosodimethylamine
4-Dimethylaminoazo-benzene	Beta-Propiolactone
Ethylene Oxide	Vinyl Chloride
Ethyleneimine	

DO NOT USE REGULATED CHEMICALS

Name: _____

Location (Building/Room): _____

Phone: _____

Email: _____

Department: _____

Please send the completed form to:

Environmental Health & Safety

002 Martin Hall

Email: envhea@ewu.edu

Fax: 359-4690

Please fill out one form for each regulated chemical you use

Name: _____

Lab Location: Building _____ Room _____

Phone number: _____ Department: _____

Regulated Chemical in use: _____

Please estimate the frequency of use for the regulated chemical in *any quantity*. (Check one)

Frequently	Occasionally	Rarely
Daily to Weekly	Monthly	>12 times/year

What concentration(s) of this chemical is used in your lab?

How often is the regulated chemical used in the chemical hood. (Check one)

Always	Sometimes	Never
--------	-----------	-------

If you answered “sometimes” or “never” to above, please briefly describe the circumstance which prevents you from using the chemical hood at all times.

Estimate, in mL, the amount of the regulated chemical used in your lab per week. (Check one)

0 – 10 mL	11 – 100 mL	>100 mL
-----------	-------------	---------

Have you used the regulated chemical in previous employment? Yes No (Check one)

Please send the completed form to:
