

PARTNERS IN SCIENCE

PARTNERS IN SCIENCE AT EWU

ABOUT PARTNERS IN SCIENCE

The Partners in Science at EWU program engages middle and high school science teachers in authentic scientific research experiences. Teachers will be paired with EWU science faculty members to conduct research projects spanning two summers. Participants will develop a deeper understanding of the nature of science, gain experience conducting scientific research, and join a community of local teachers and researchers who are passionate about engaging K-12 students in scientific inquiry.

Benefits

- The opportunity to engage in an authentic science research project
- A \$6,500 stipend each summer
- Access to \$1,250 in supplies each summer to fund research projects
- Experiences that contribute to a deeper understanding of scientific inquiry
- Travel, lodging, and meals included to attend two Murdock Partners in Science conferences each year in Vancouver, WA and Portland, OR
- Access to \$4,500 in classroom supplies to engage your students in scientific inquiry after completing the second summer
- A network of science teachers and faculty members

Eligibility

- Full-time middle or high school science teacher
- Bachelor's degree in a science-related field
- Commitment to professional learning and inquiry-based science instruction
- Available for two summers and the Murdock conferences

Partners in Science engages teachers in **scientific research**

Research projects available in **biology, chemistry, and geosciences**

Bring authentic science **into your classroom!**

The Partners in Science Program is supported by a grant funded by the M.J. Murdock Charitable Trust.
