ROLE OF HUMAN RESOURCES-STUDENT EMPLOYMENT

Human Resources—Student Employment provides employment resources and professional development opportunities which help students in their pursuit of educational goals. Human Resources helps facilitate hiring of student employees by campus departments and by off campus employers who provide Work Study opportunities.

STUDENT EMPLOYMENT OPPORTUNITIES

1. Undergraduate and Graduate Students

Institutionally Funded Positions

All students with 6 credits or more are eligible to apply for on-campus positions which are funded by the hiring department.

Work Study Funded Student Employees

- Work Study student with 6 credits or more are eligible to apply for jobs. Work Study is a program that provides the opportunity for students with financial need to earn money to help pay educational expenses and reduce loan debt while gaining valuable work experience. Work study students who receive a work study award may apply to work either on campus or off-campus at an approved work study site. If a student has received work study, it will be noted in their financial aid package in EagleNET. Work study funds are not available until the first day of an academic term. ***Students must be awarded work study by Financial Aid. Students may not apply for a work study position unless they have been awarded work study.*** Each academic year work study students **must** complete a new work study authorization form **even if working in the same department. Students will receive an authorization form from Human Resources to complete with the department. The form must be returned to Human Resources--Student Employment prior to beginning work.**

Employment Start Dates/Work Time Restrictions

- Student employees may **not** begin work before completing all necessary hiring paperwork.
- Student employees **cannot** work during scheduled class hours or finals.
